Effective, Appropriate & Intentional Use Presidential Mandate

“Tonight, I propose working with states to make high-quality preschool available to every single child in America.”

Effective, Appropriate & Intentional Use Presidential Mandate

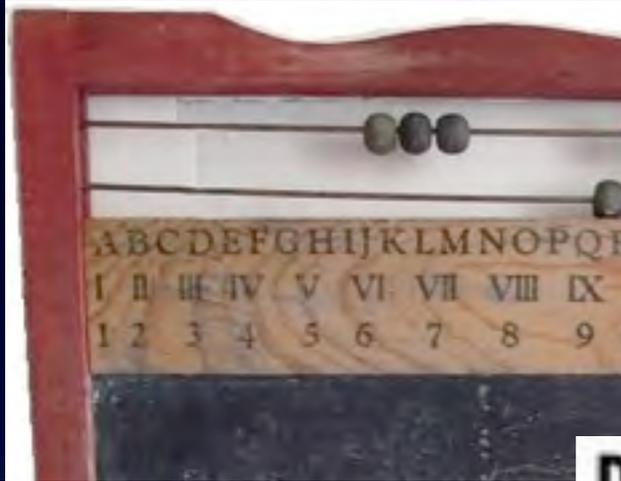

It is our opportunity to rise to the moment.

Effective, Appropriate & Intentional Use High Quality Early Childhood Ed.

- Learning through exploration & play,
- Developmentally appropriate manipulatives
- Well-prepared and paid, reflective teachers
- Aesthetically embracing classroom
- Where technology may be an option

Effective, Appropriate & Intentional Use Historical Context

Effective, Appropriate & Intentional Use Technologies and Learning

Educational Technologies have always been:

- Reflective of scientific innovation
- Based on learning theory
- Framed by pedagogy
- Implemented with intentionality by masters

Effective, Appropriate & Intentional Use NAEYC Position Statement

Supports:
child initiated,
child directed,
teacher supported,
intentional play with digital devices

Effective, Appropriate & Intentional Use NAEYC Position Statement

Effective uses of technology and media:

- Are active & hands-on
- Are engaging & empowering
- Give the child control
- Provide scaffolds for learning
- One of many options

Effective, Appropriate & Intentional Use NAEYC Position Statement

When used “appropriately”

- playful, foster co-engagement
- extend learning
- reveal to children
- support not supplant essential activities
- help children save, document, revisit, & share
- support creativity, exploration, & active play

Effective, Appropriate & Intentional Use NAEYC Position Statement

Intentionality is Key:

- Consider your goals
- will technology extend learning in ways not otherwise possible?

Effective, Appropriate & Intentional Use Technology Reflection

In each Learning situation ask:

- What is my goal or objective
- What learning tools best supports that goal
- How can the tools be used appropriately
- What will tell me they are being effective
- How can we use them intentionally

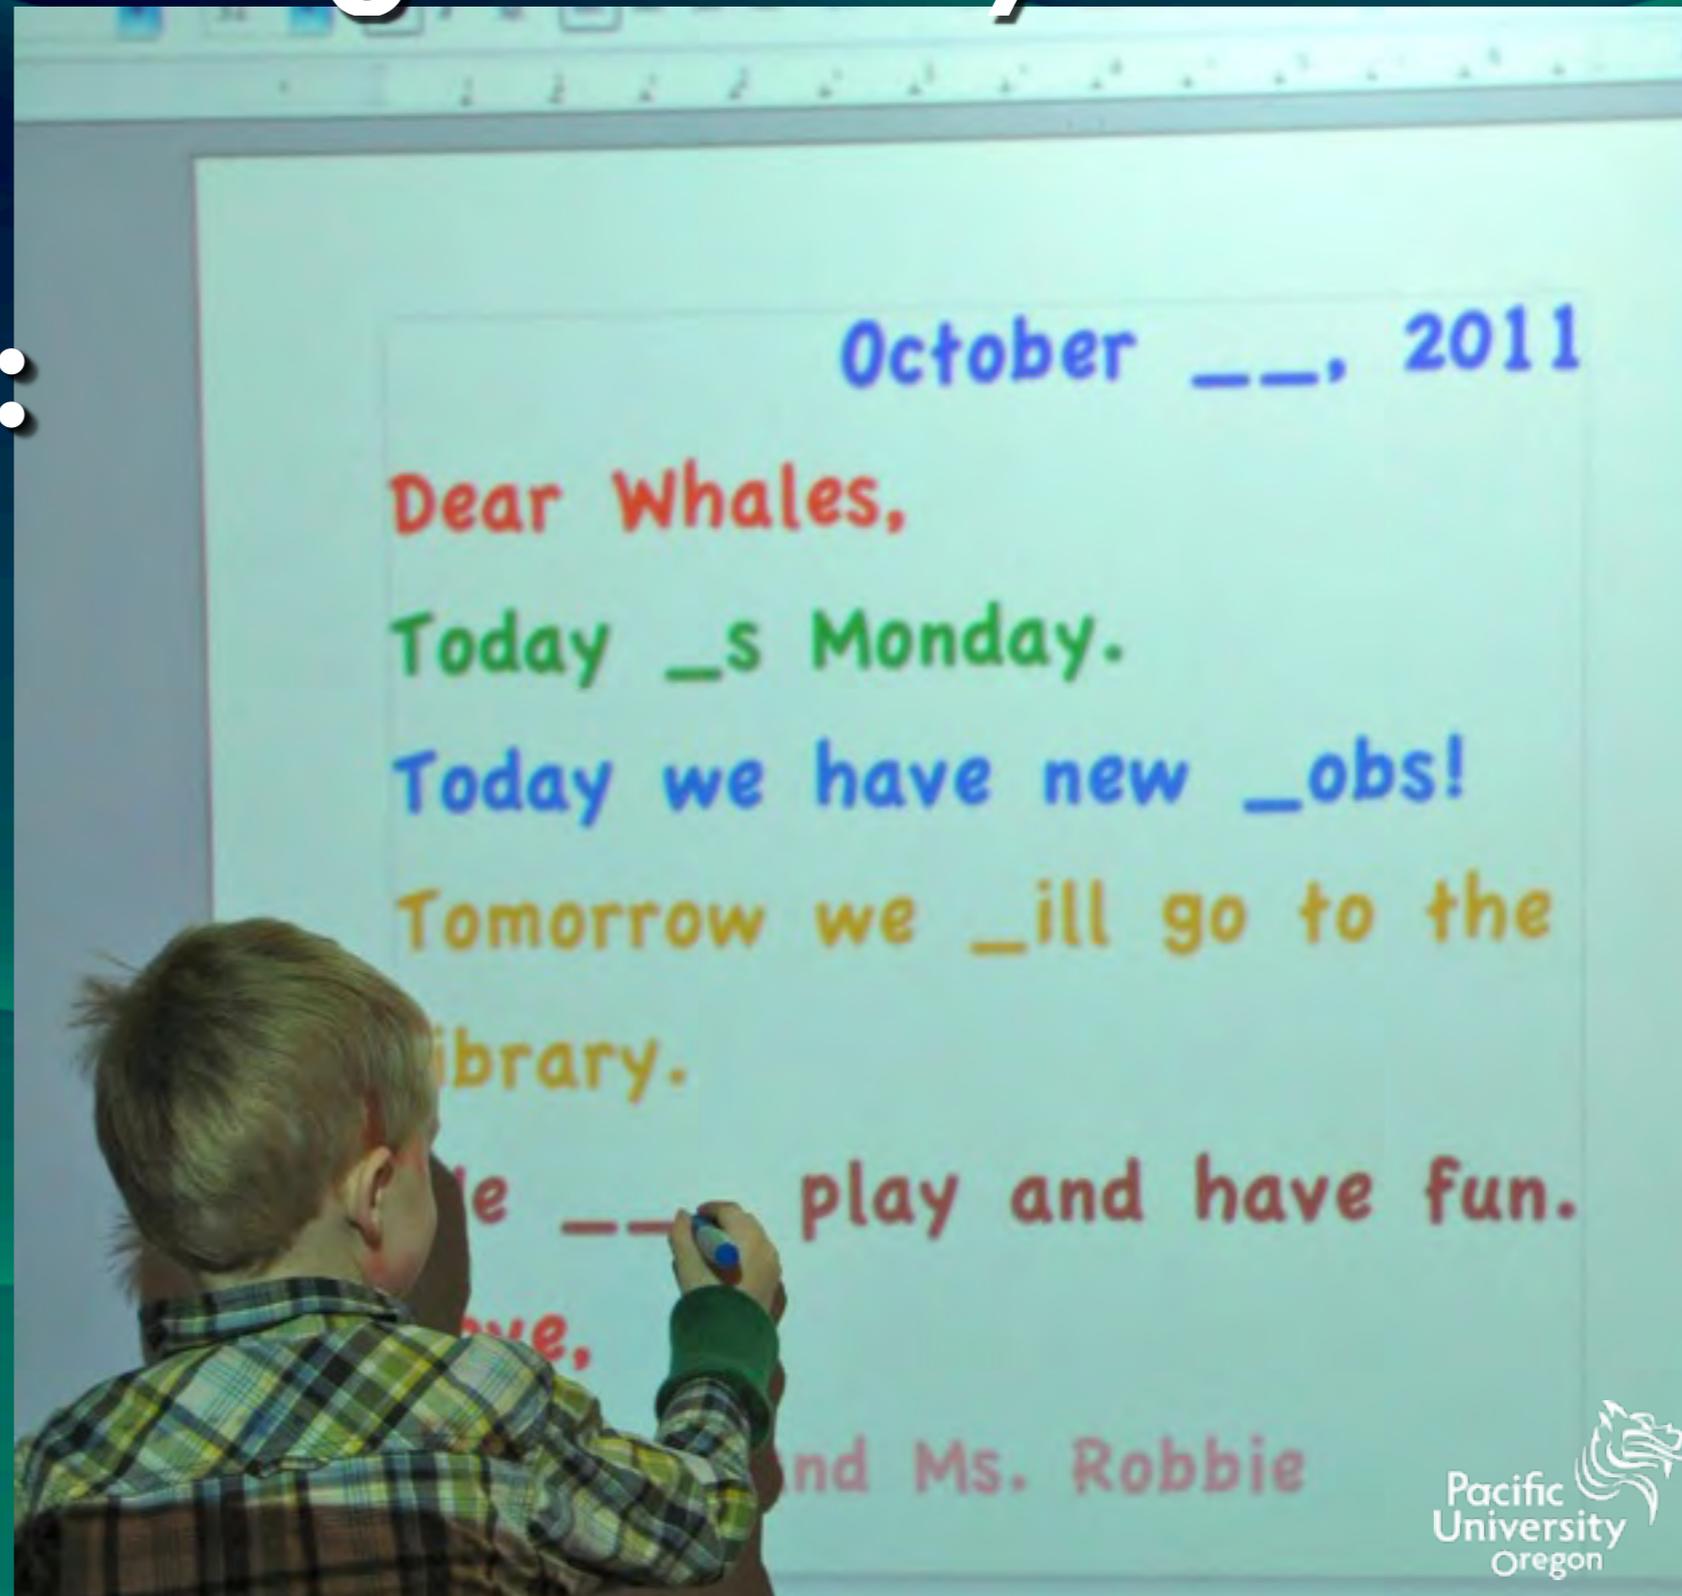

Effective, Appropriate & Intentional Use Technological Tools

Intentionality is key

Effective, Appropriate & Intentional Use Supporting Literacy

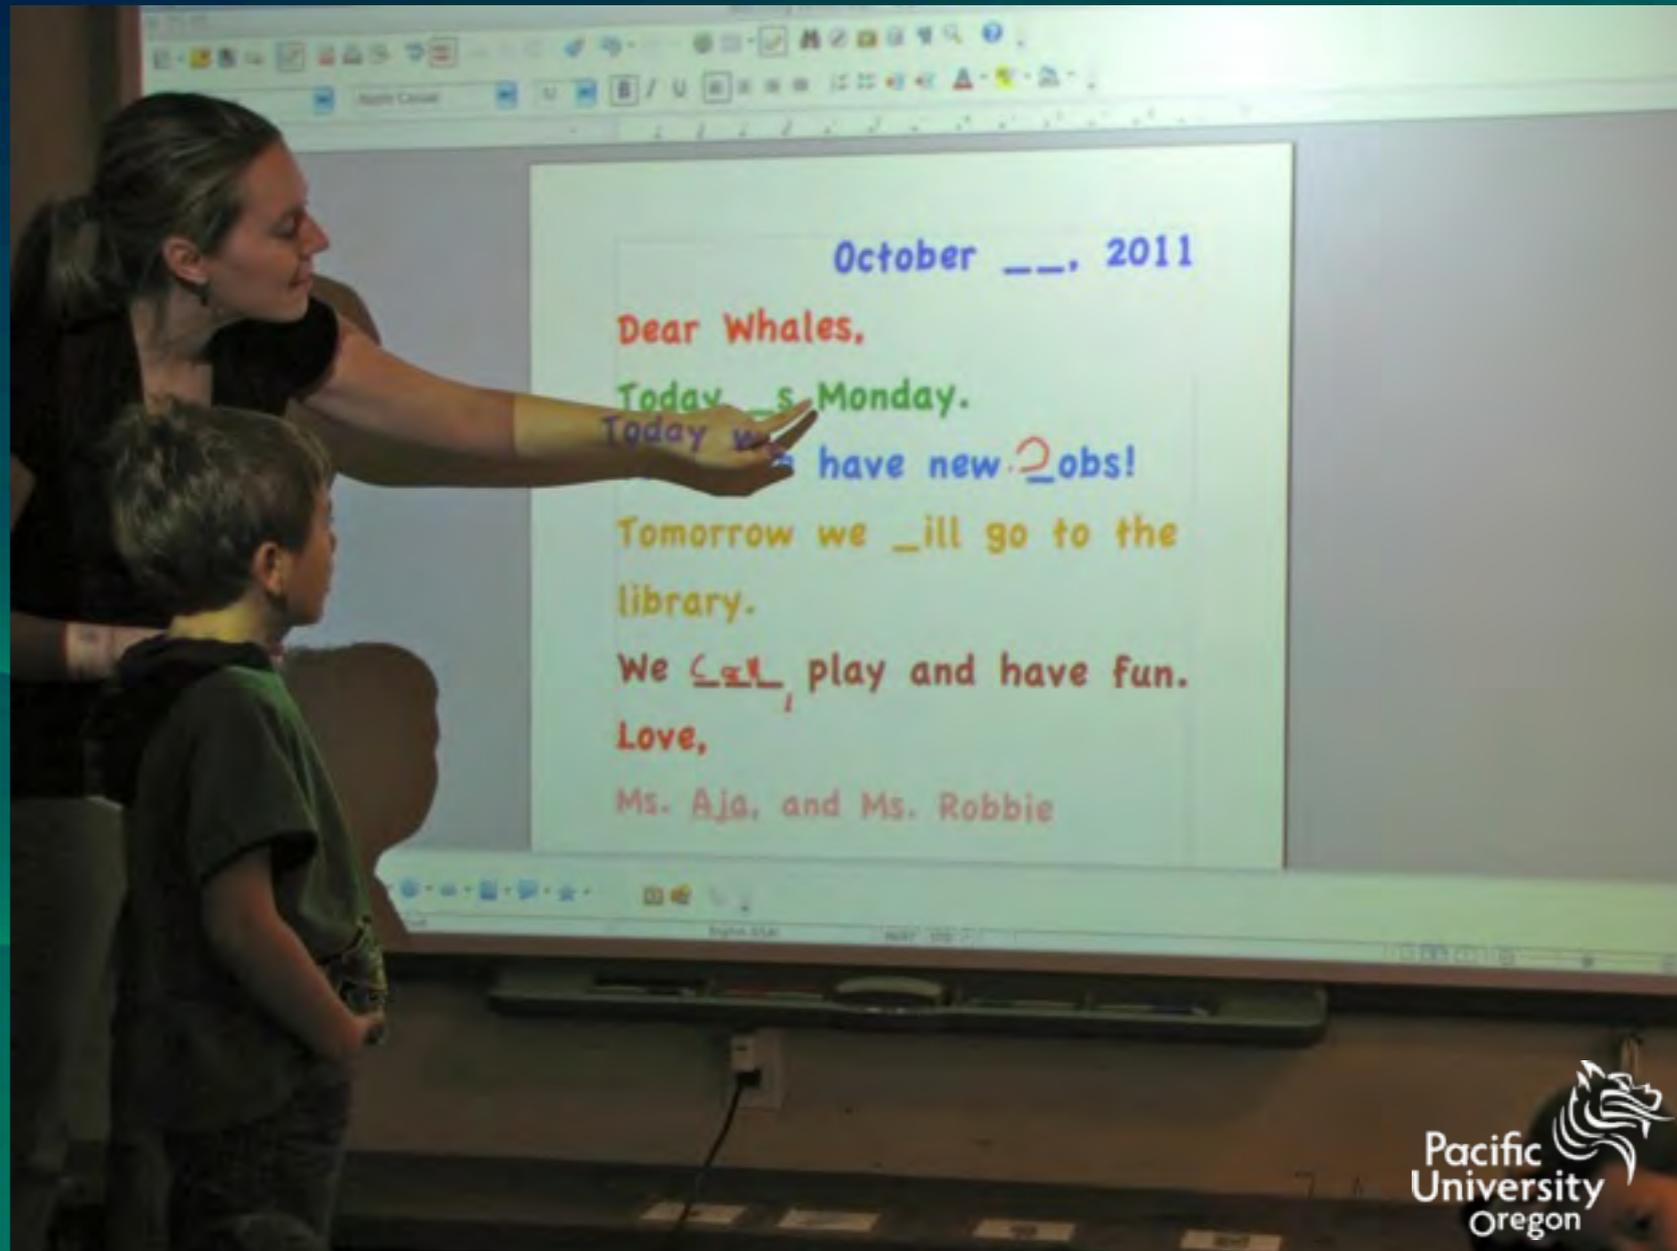

SmartBoard: *Fostering Authentic Literacy*

Effective, Appropriate & Intentional Use Supporting Literacy

Requires

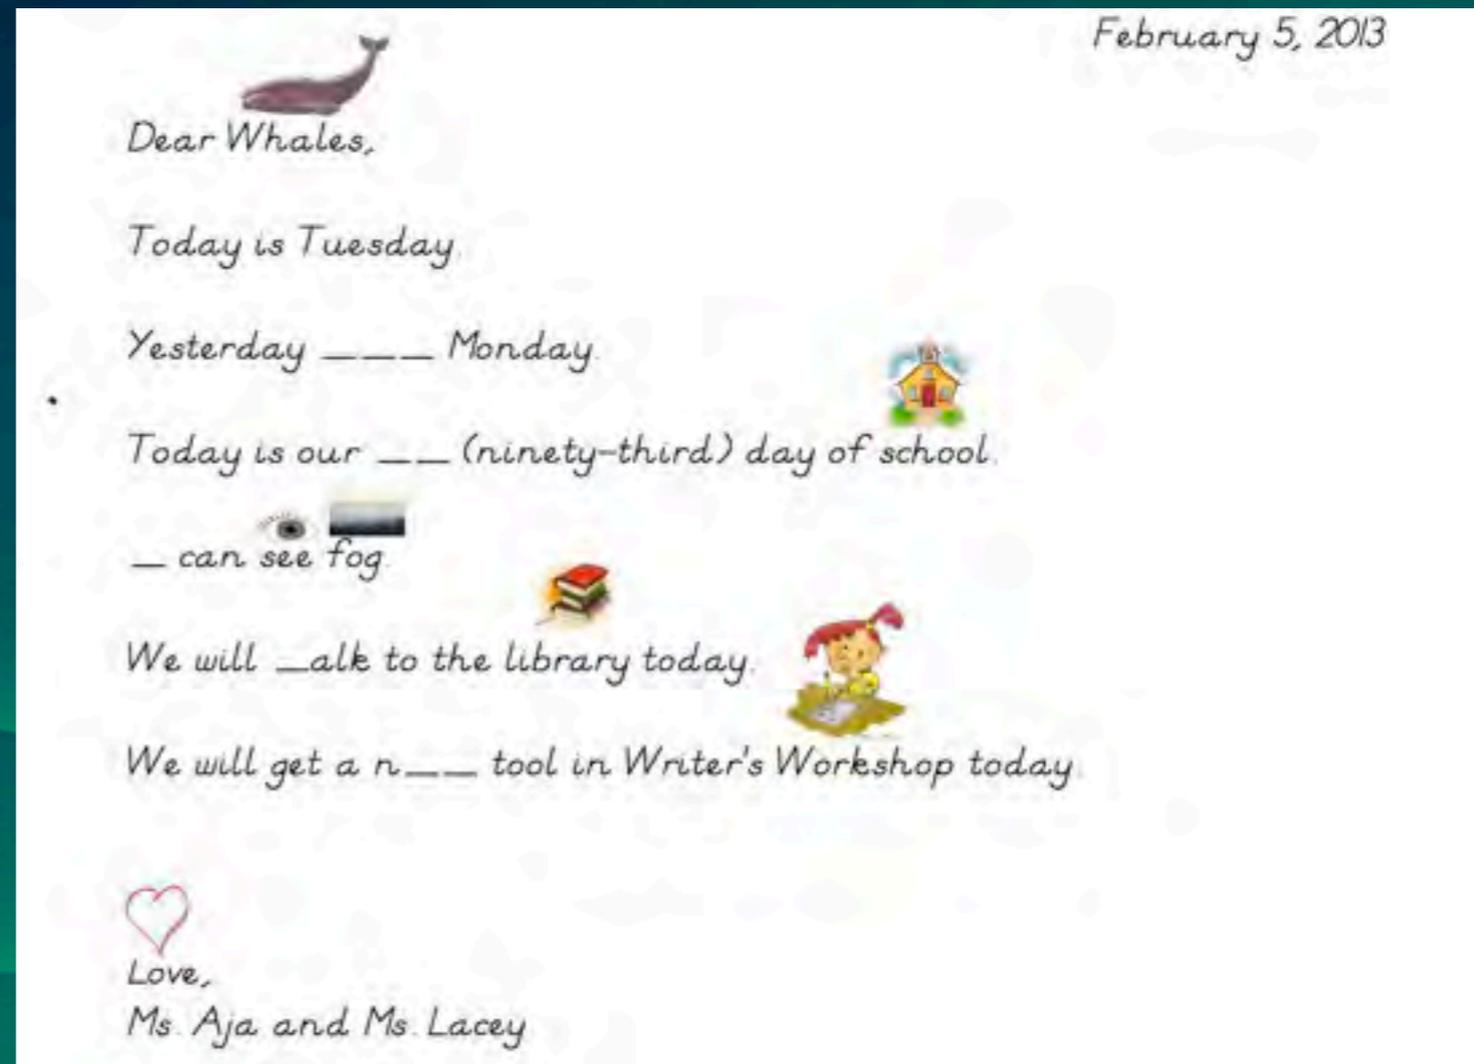

- Interactive Whiteboard
- Computer
- Projector
- Smart Notebook software
- White boards

Effective, Appropriate & Intentional Use Supporting Literacy

Using Interactive Whiteboard

- Authentic letter
- Strategic words
- Enticing graphics
- Student leader
- Active engagement

Effective, Appropriate & Intentional Use Supporting Literacy

February 5, 2013

Dear Whales,

Today is Tuesday.

Yesterday was Monday.

Today is our 93 (ninety-third) day of school.

I can see fog.

We will walk to the library today.

We will get a new tool in Writer's Workshop today.

Love,
Ms. Aja and Ms. Lacey

 we learned how
to use ten sticks

 93

Save & Revisit Work

Effective, Appropriate & Intentional Use Supporting Literacy

Evaluating Interactive White Board

- Increases engagement
- Empowers students
- Fosters discussions
- Provides scaffolds
- Enables saving & revisiting
- Not inexpensive

Effective, Appropriate & Intentional Use Supporting Literacy

Storykit App: *Empowering Students Through Storytelling*

Effective, Appropriate & Intentional Use Supporting Literacy

Requires

- iPad, iPhone, or iPod Touch

Using StoryKit

- Create story
- Illustrate or capture photo
- Type or write captions
- Record Audio
- Share

Effective, Appropriate & Intentional Use Supporting Literacy

School and Sister and Me

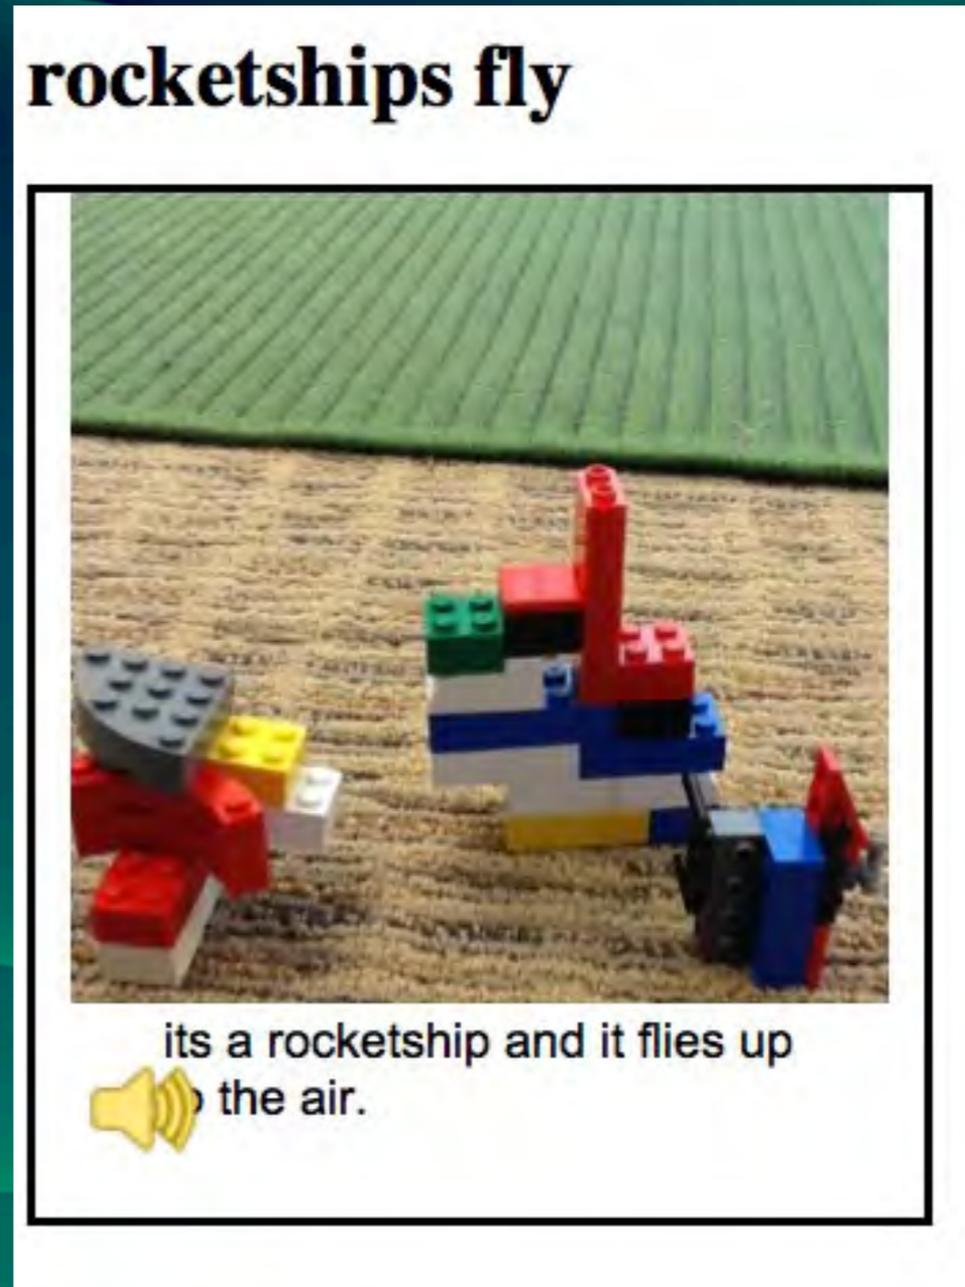

Audio Recording:

“A long time ago my sister and me went to the ELC and it’s the one we’re in right now and when she came out a lot of times she would pick me up and we would talk together.”

Effective, Appropriate & Intentional Use Supporting Literacy

<http://iphone.childrenslibrary.org/cgi-bin/view.py?b=2goppxf6ov7cqutftnix>

Effective, Appropriate & Intentional Use Supporting Literacy

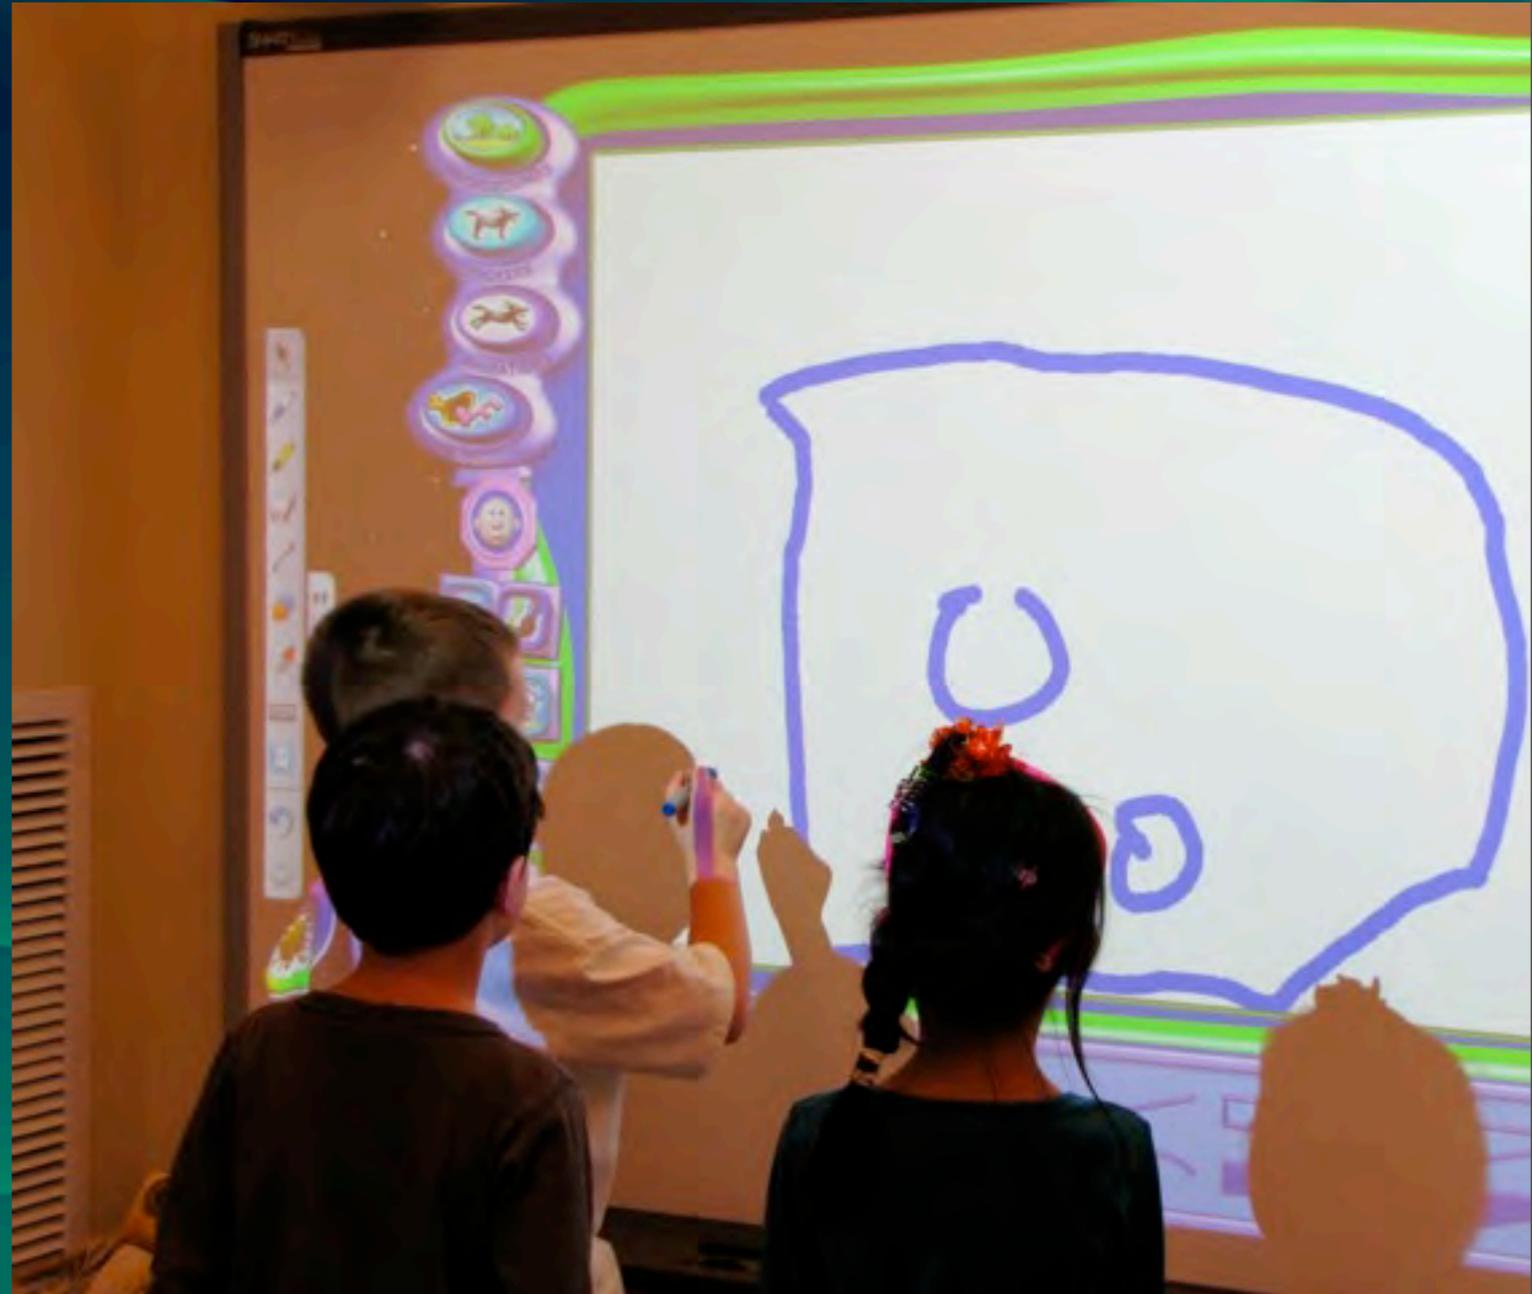

Evaluating StoryKit

- Inspires creativity
- Empowers stories
- Extends learning
- Supports sharing
- Creates connections

Effective, Appropriate & Intentional Use Supporting Literacy

KidPix:
*Encouraging
Creativity &
Collaboration*

Effective, Appropriate & Intentional Use Supporting Literacy

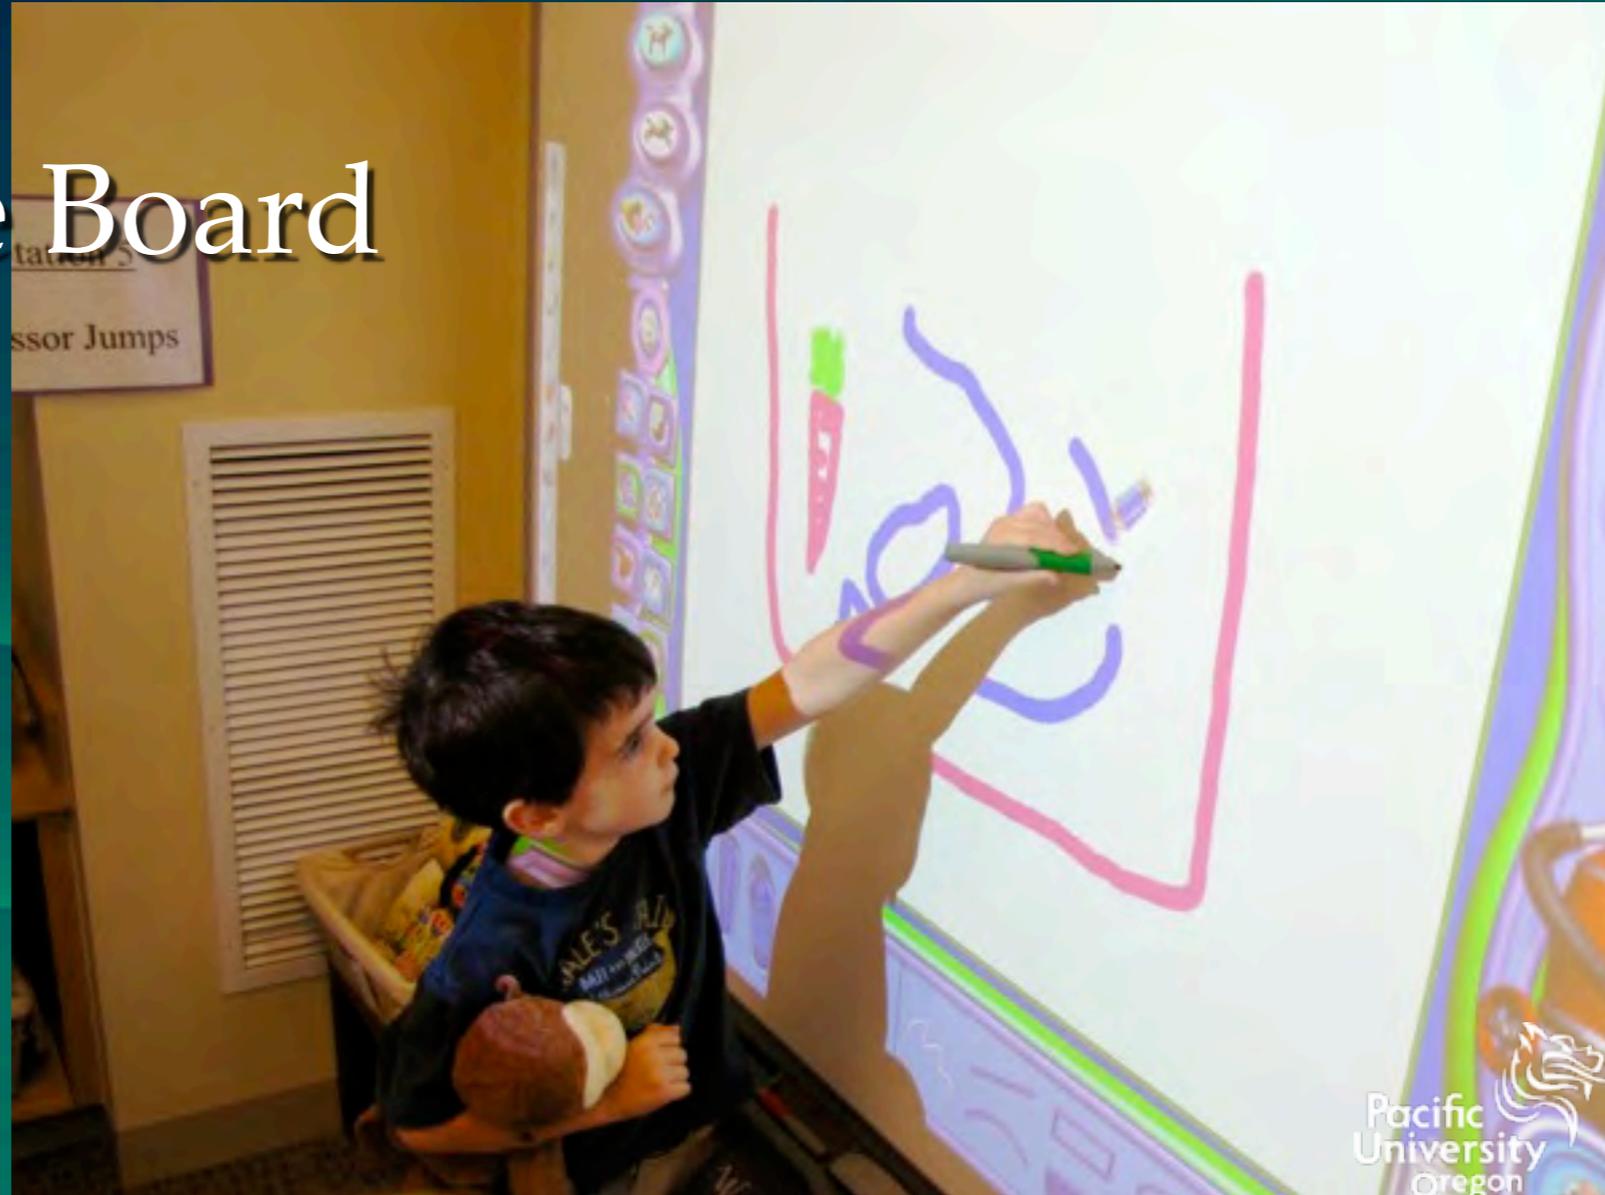

Supports & Extends

Effective, Appropriate & Intentional Use Supporting Literacy

Requires

- Computer
- Kidpix Software
- Interactive White Board (optional)

Effective, Appropriate & Intentional Use Supporting Literacy

Using Kidpix

- Small groups
- Large canvas
- Create & play
- Modify & revisit
- Share

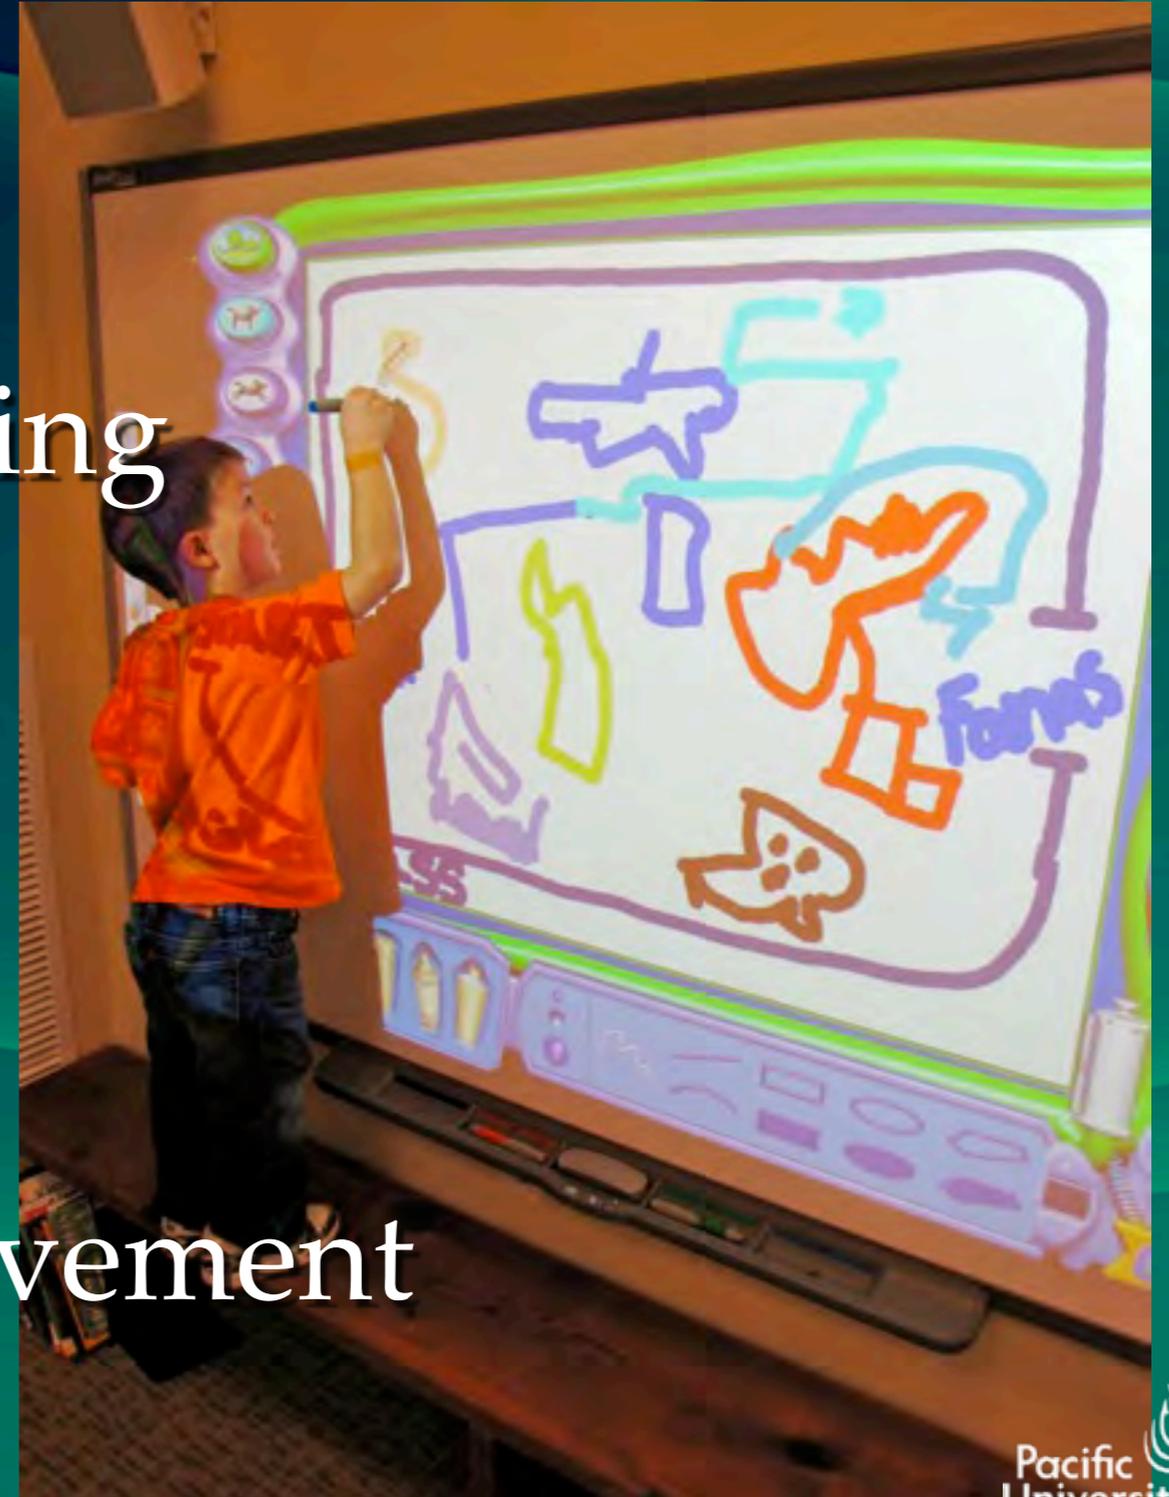

Effective, Appropriate & Intentional Use

Supporting Literacy

Evaluating Kidpix

- Inspires hands-on learning
- Encourages creativity
- Invites self-expression
- Extends literacy
- Encourages dwelling
- Allows gross-motor movement

Effective, Appropriate & Intentional Use Supporting Literacy

**Storyography:
Empowering Children's Voices
through multimedia
storymaking**

Effective, Appropriate & Intentional Use

Supporting Literacy

Storyography

- Storymaking emerges from imaginative play
- Student directed & documented narrative
- Supported by intentional teacher

Requires

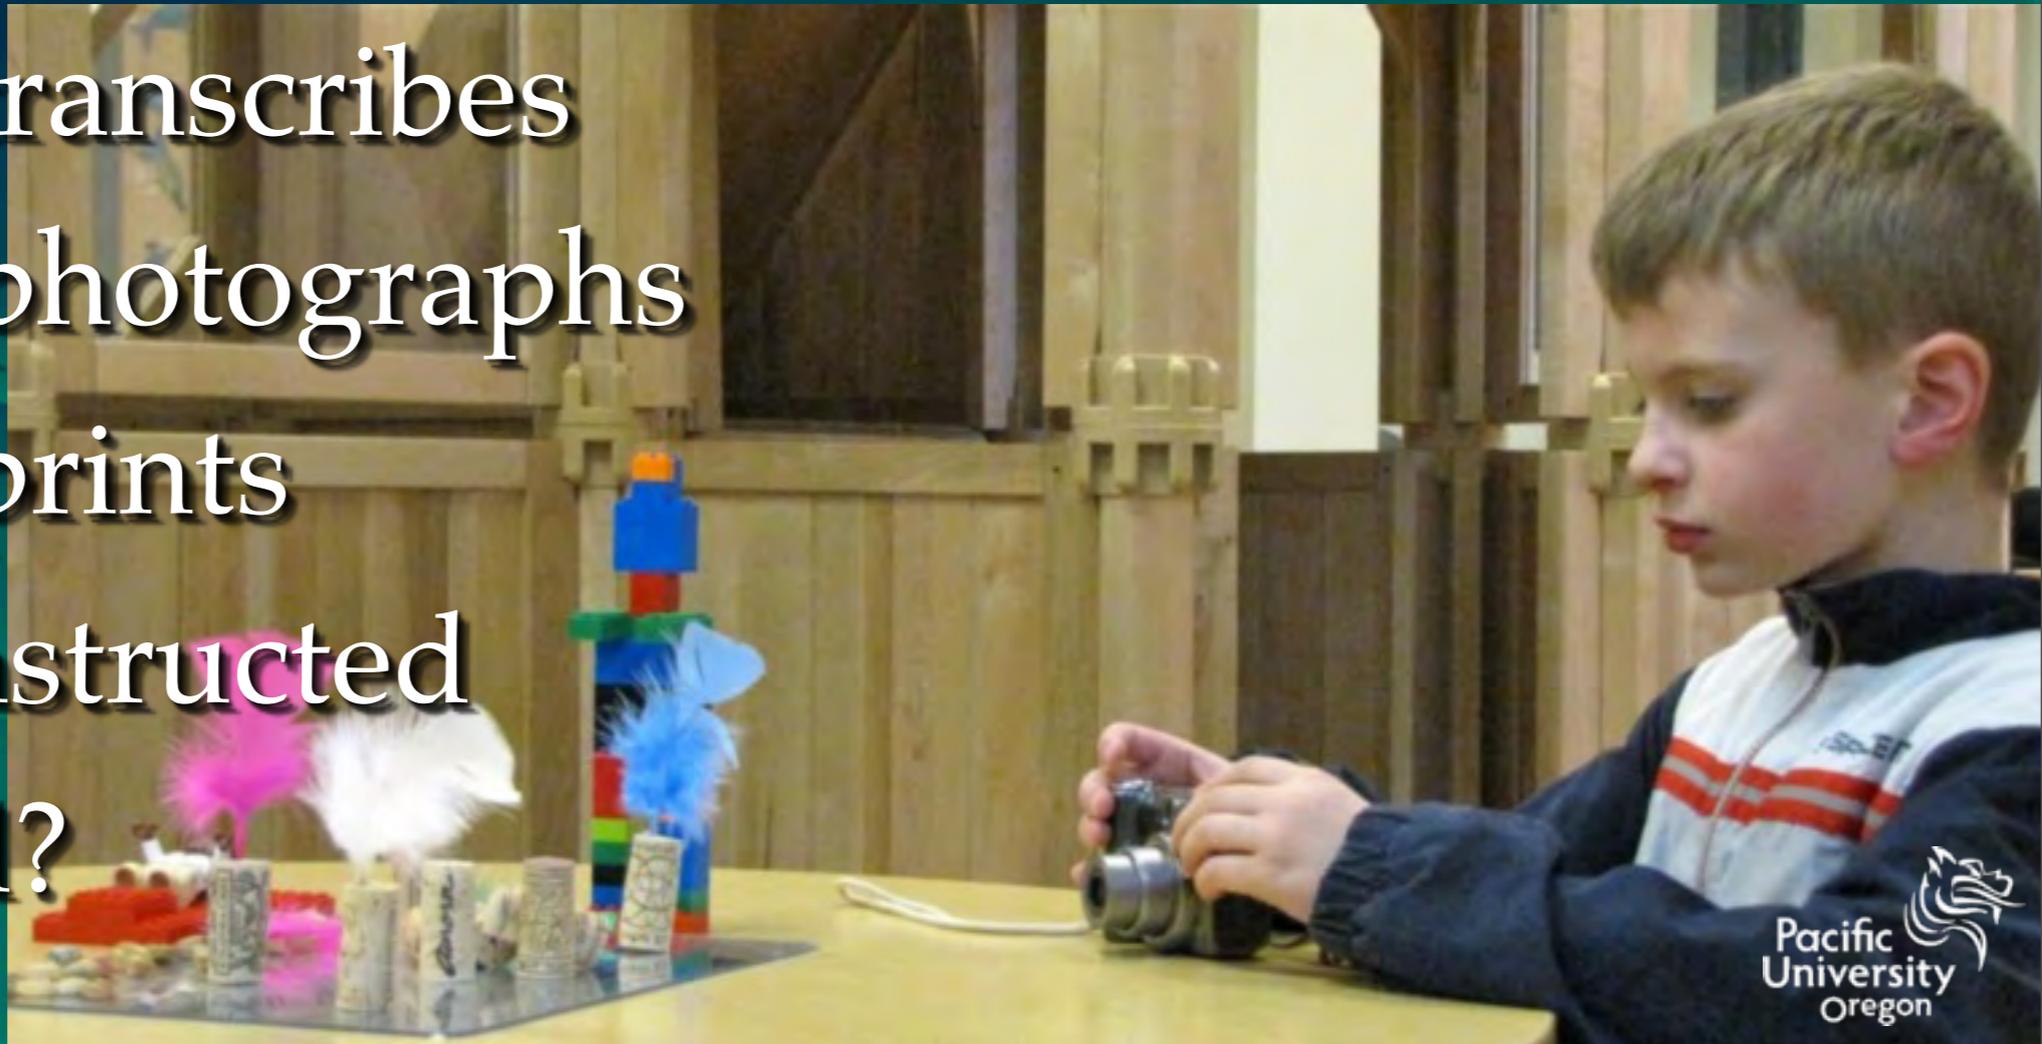

- Close teacher scaffolding
- Bookbinding materials
- Digital camera, computer, printer

Effective, Appropriate & Intentional Use Supporting Literacy

Process:

- Student creates
- Teacher transcribes
- Student photographs
- Teacher prints
- Book constructed
- Digitized?

Effective, Appropriate & Intentional Use Supporting Literacy

Student Creates

Effective, Appropriate & Intentional Use Supporting Literacy

Story Transcribed

Effective, Appropriate & Intentional Use Supporting Literacy

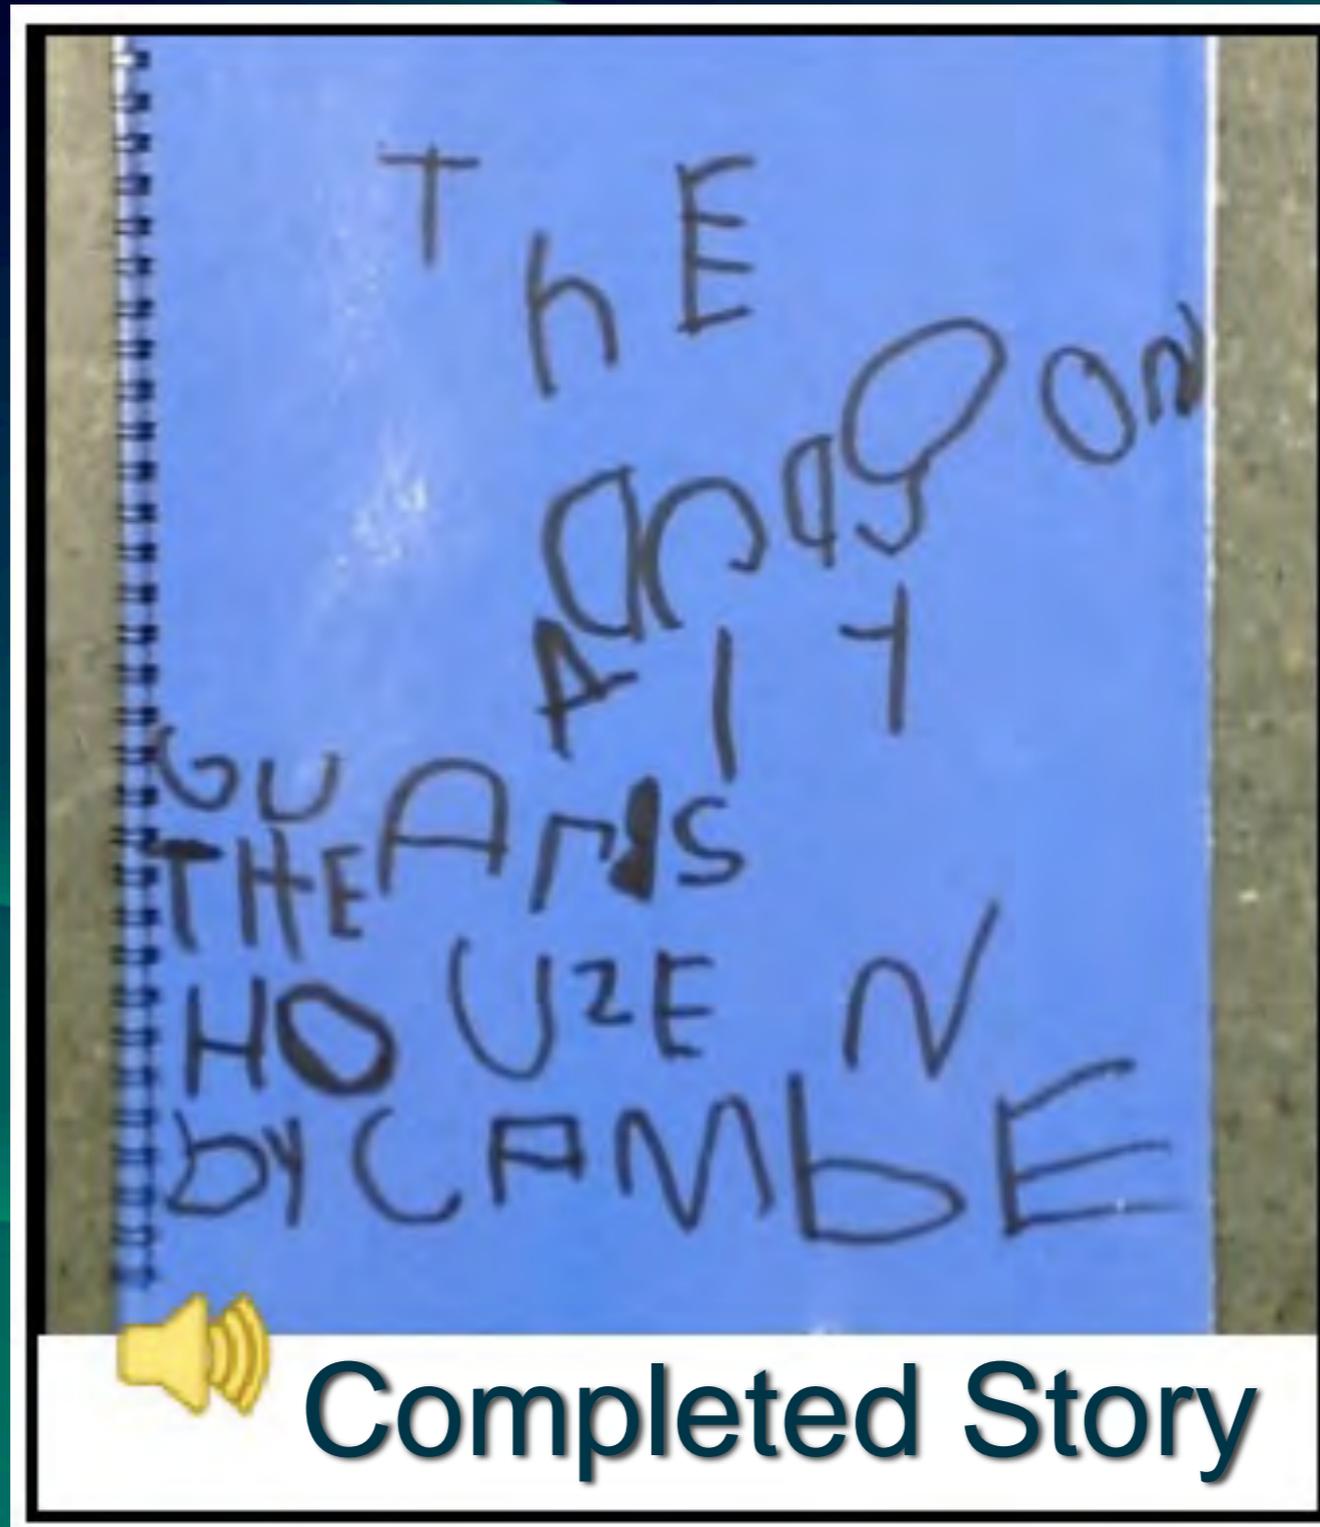

Teacher Scaffolding

Effective, Appropriate & Intentional Use Supporting Literacy Video

Photographing Each Image

Effective, Appropriate & Intentional Use Supporting Literacy

Effective, Appropriate & Intentional Use Supporting Literacy

The dragonfly is guarding the house.

He doesn't want anybody to come because the baby horse is eating his food.

Effective, Appropriate & Intentional Use Supporting Literacy

Evaluating Storyography

- UDL with adaptive scaffolds
- Effectively inspires literacy
- Extends experiences
- Intentionality & creativity
- Sharing & revisiting

Effective, Appropriate & Intentional Use

Supporting Science

Microscopes:
Empowering
New Perspectives

Effective, Appropriate & Intentional Use Supporting Science

Requires

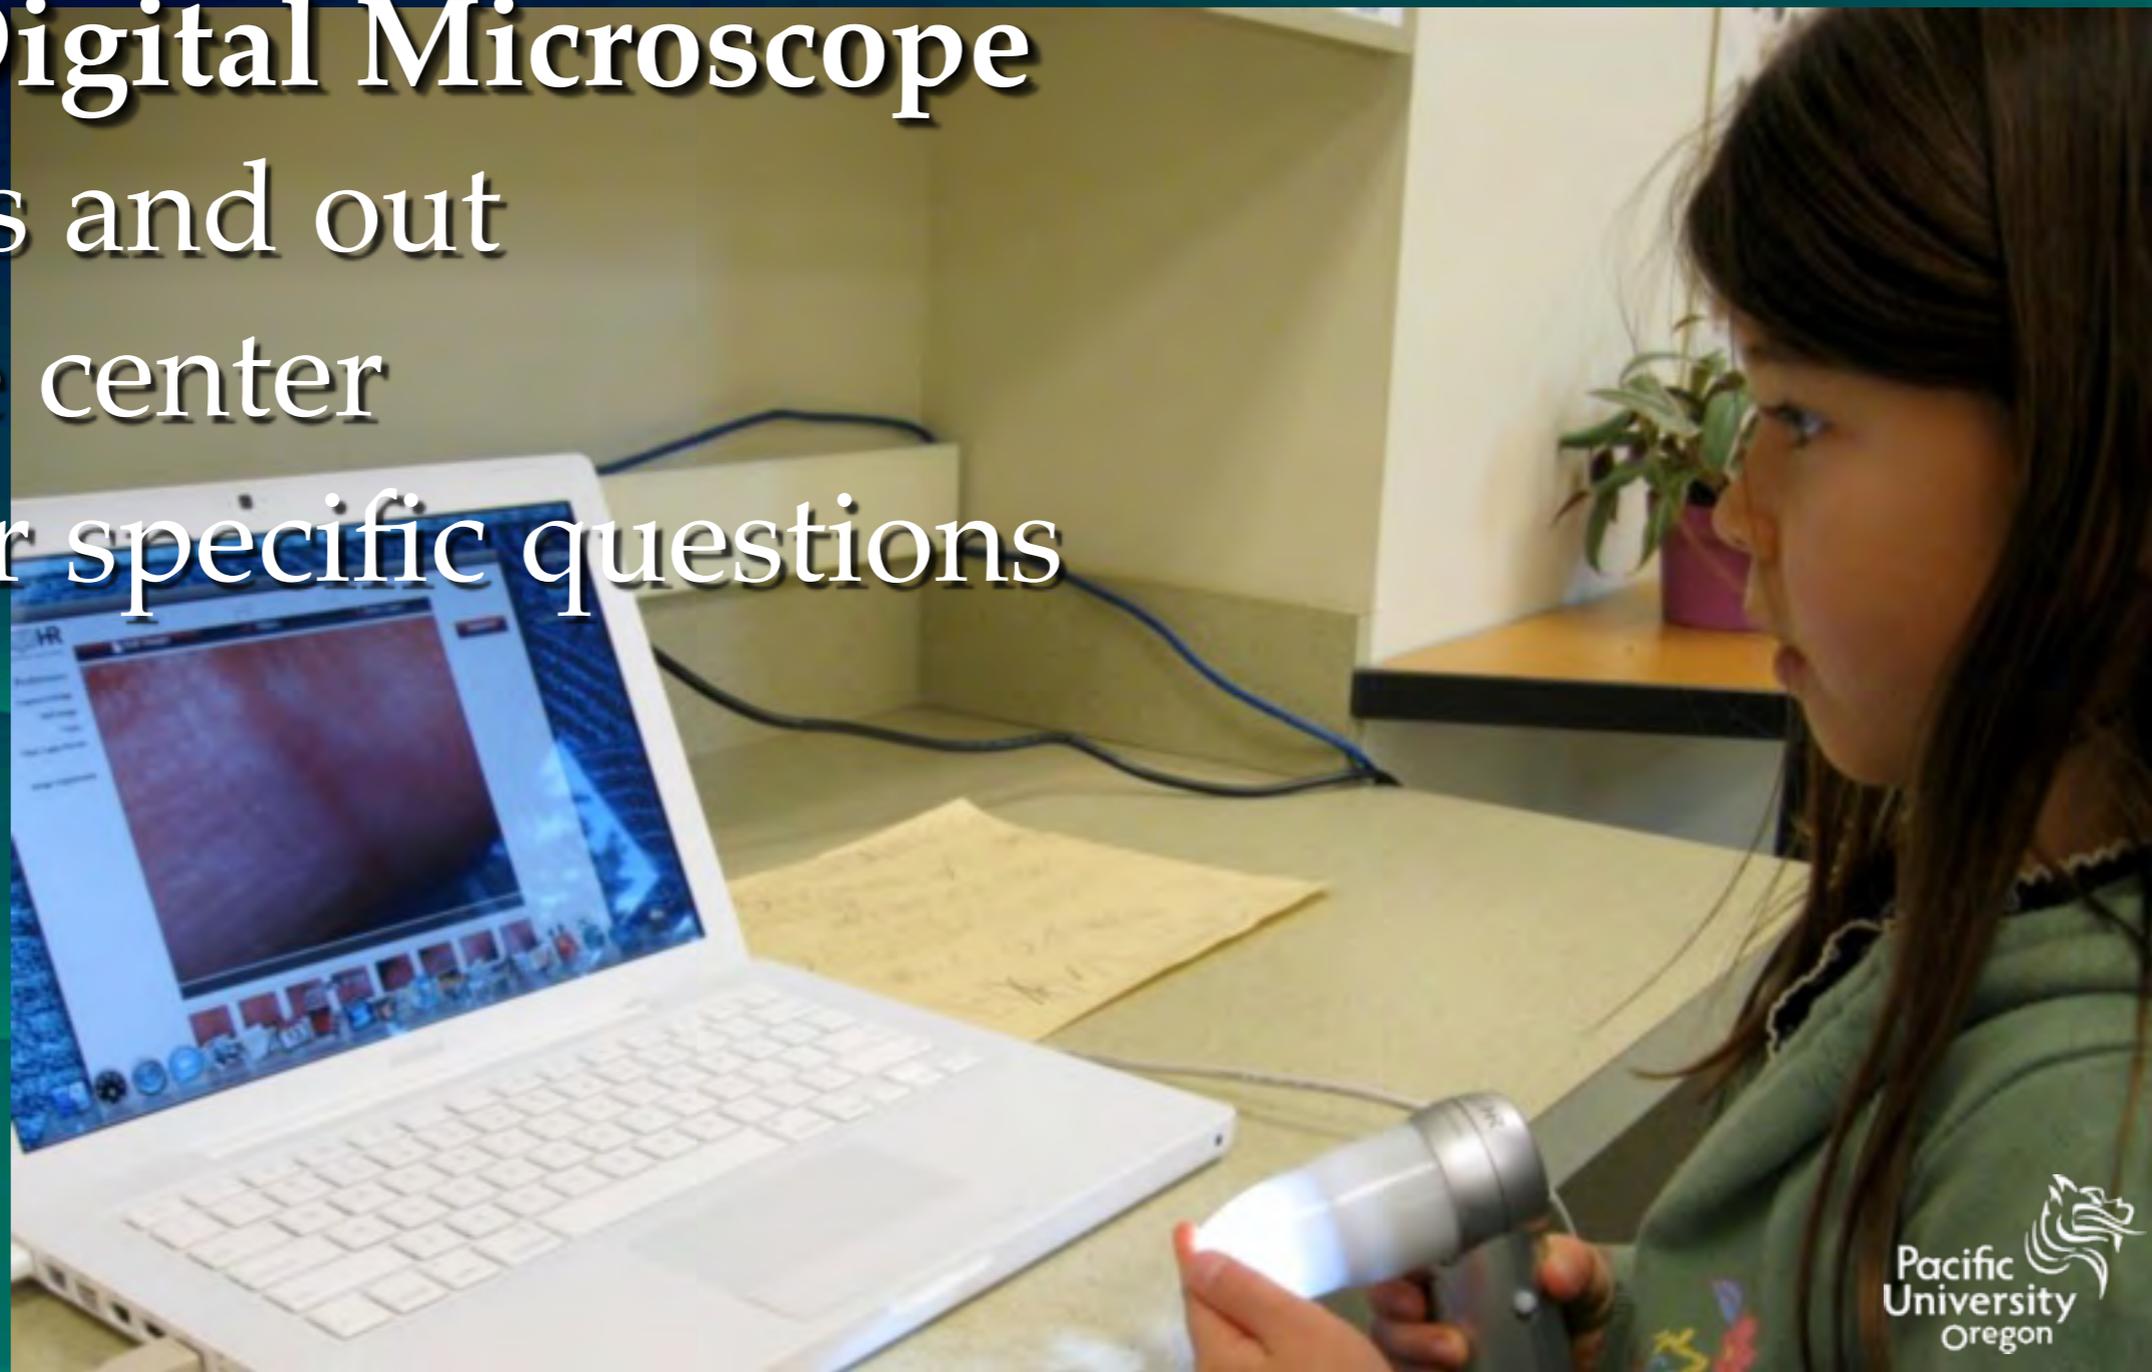

- Microscope: Wired or Wireless
- Computer Screen
- Free Software

Effective, Appropriate & Intentional Use Supporting Science

Using Digital Microscope

- Indoors and out
- Science center
- Answer specific questions

Effective, Appropriate & Intentional Use Supporting Science Video

Effective, Appropriate & Intentional Use Supporting Science

Microscopes in the Classroom

- Effective in sparking wonder
- Extends authentic learning
- Empowers exploration
- Fosters thinking
- Inherently motivating
- Not Inexpensive

Effective, Appropriate & Intentional Use Supporting Numeracy

Virtual Manipulatives:

Investigating Mathematical Concepts

Effective, Appropriate & Intentional Use

Supporting Numeracy

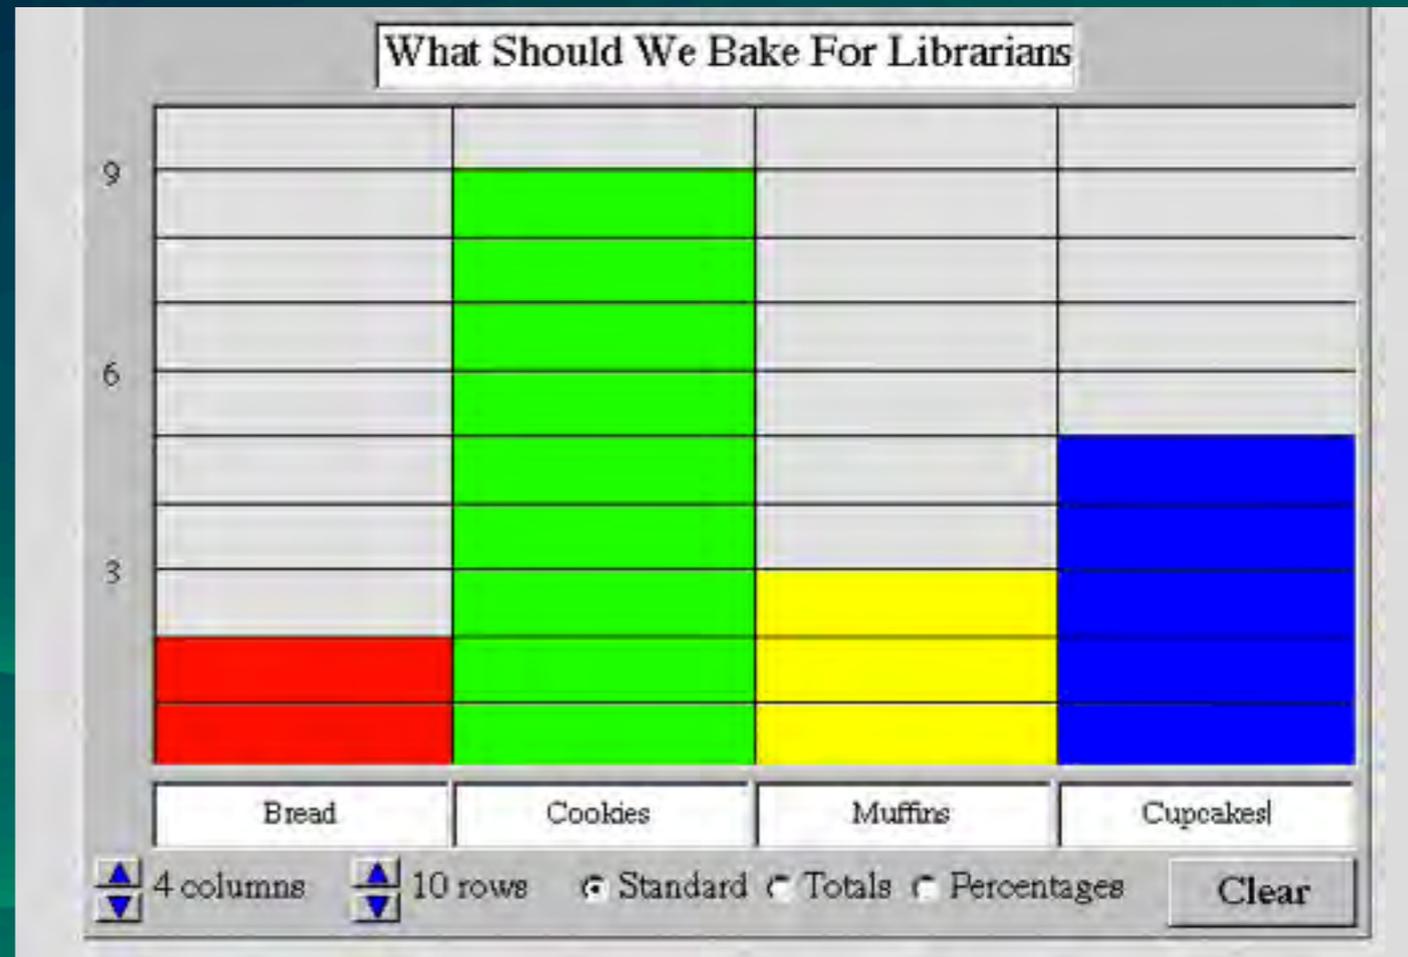

Using Virtual Manipulatives

- Java-based math tools
- Voting capabilities

Requires

- Computer with internet

<http://nlvm.usu.edu/en/nav/vlibrary.html>

Effective, Appropriate & Intentional Use Supporting Numeracy

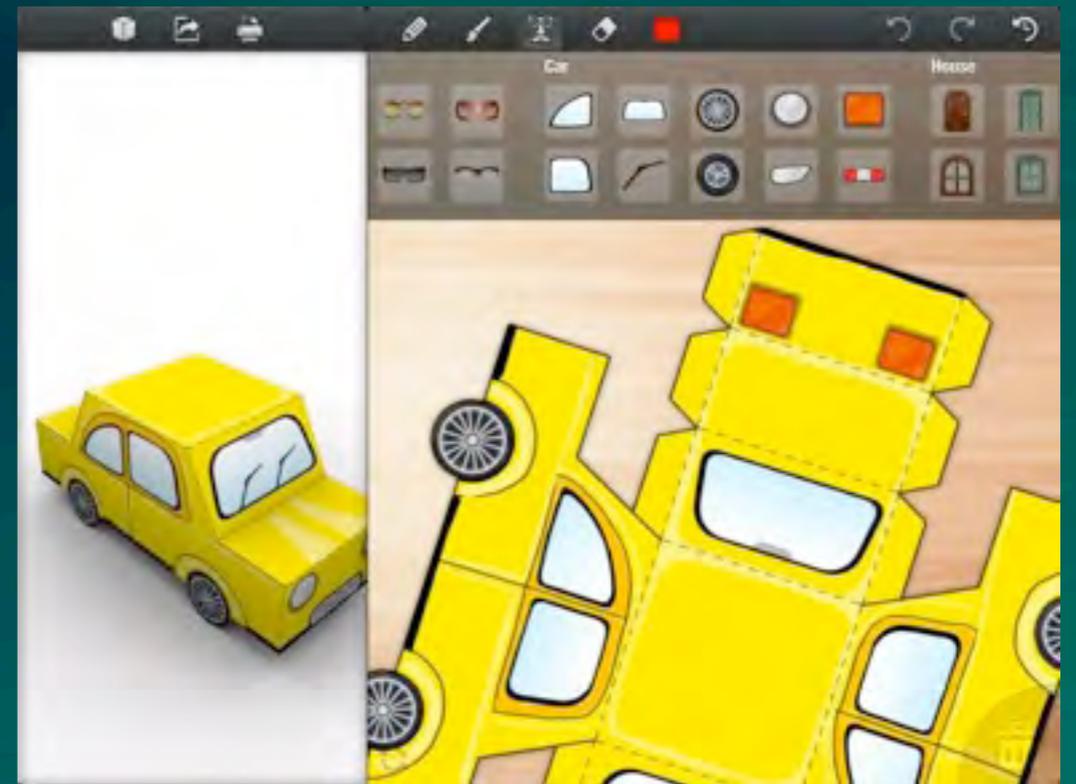

Evaluating Virtual Manipulatives

- Playful, collaborative learning
- Encourages problem-solving
- Extends discussions
- Empowers students
- Sometimes top-down

Effective, Appropriate & Intentional Use Supporting Numeracy

Foldify:
*Exploring
Dimensionality*

Effective, Appropriate & Intentional Use Supporting Numeracy

Using Foldify

- Design a structure
- Print
- Cut and fold
- Play

Requires

- iPad
- Foldify App

Effective, Appropriate & Intentional Use Supporting Numeracy

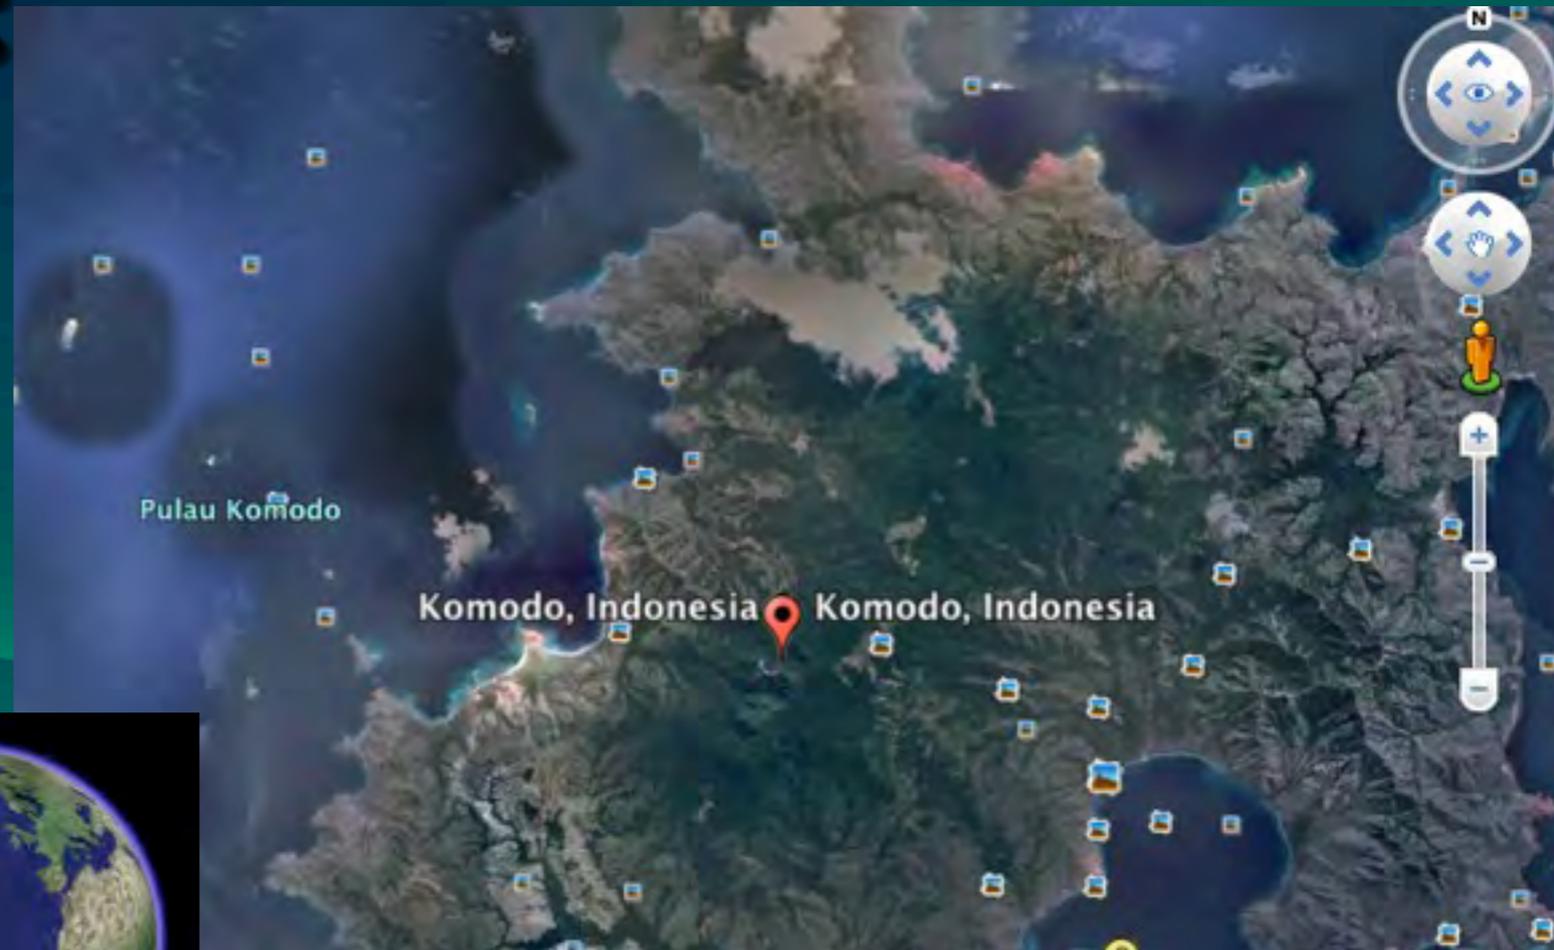

Evaluating Foldify

- Promotes creativity
- Fosters collaboration
- Extends numeracy
- Inspires play
- Encourages problem-solving

Effective, Appropriate & Intentional Use Supporting Social Studies

Google Earth: *Exploring Our World*

Effective, Appropriate & Intentional Use Supporting Social Studies

Requires

- Google Earth Software
- Computer with Internet

Using Google Earth

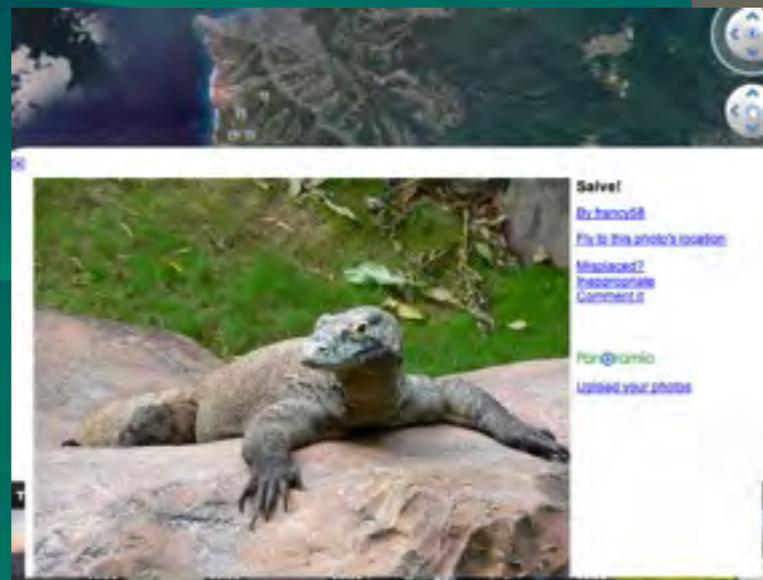

- Virtual travel
- Photos, videos
- Zoom-in feature

Effective, Appropriate & Intentional Use Supporting Social Studies

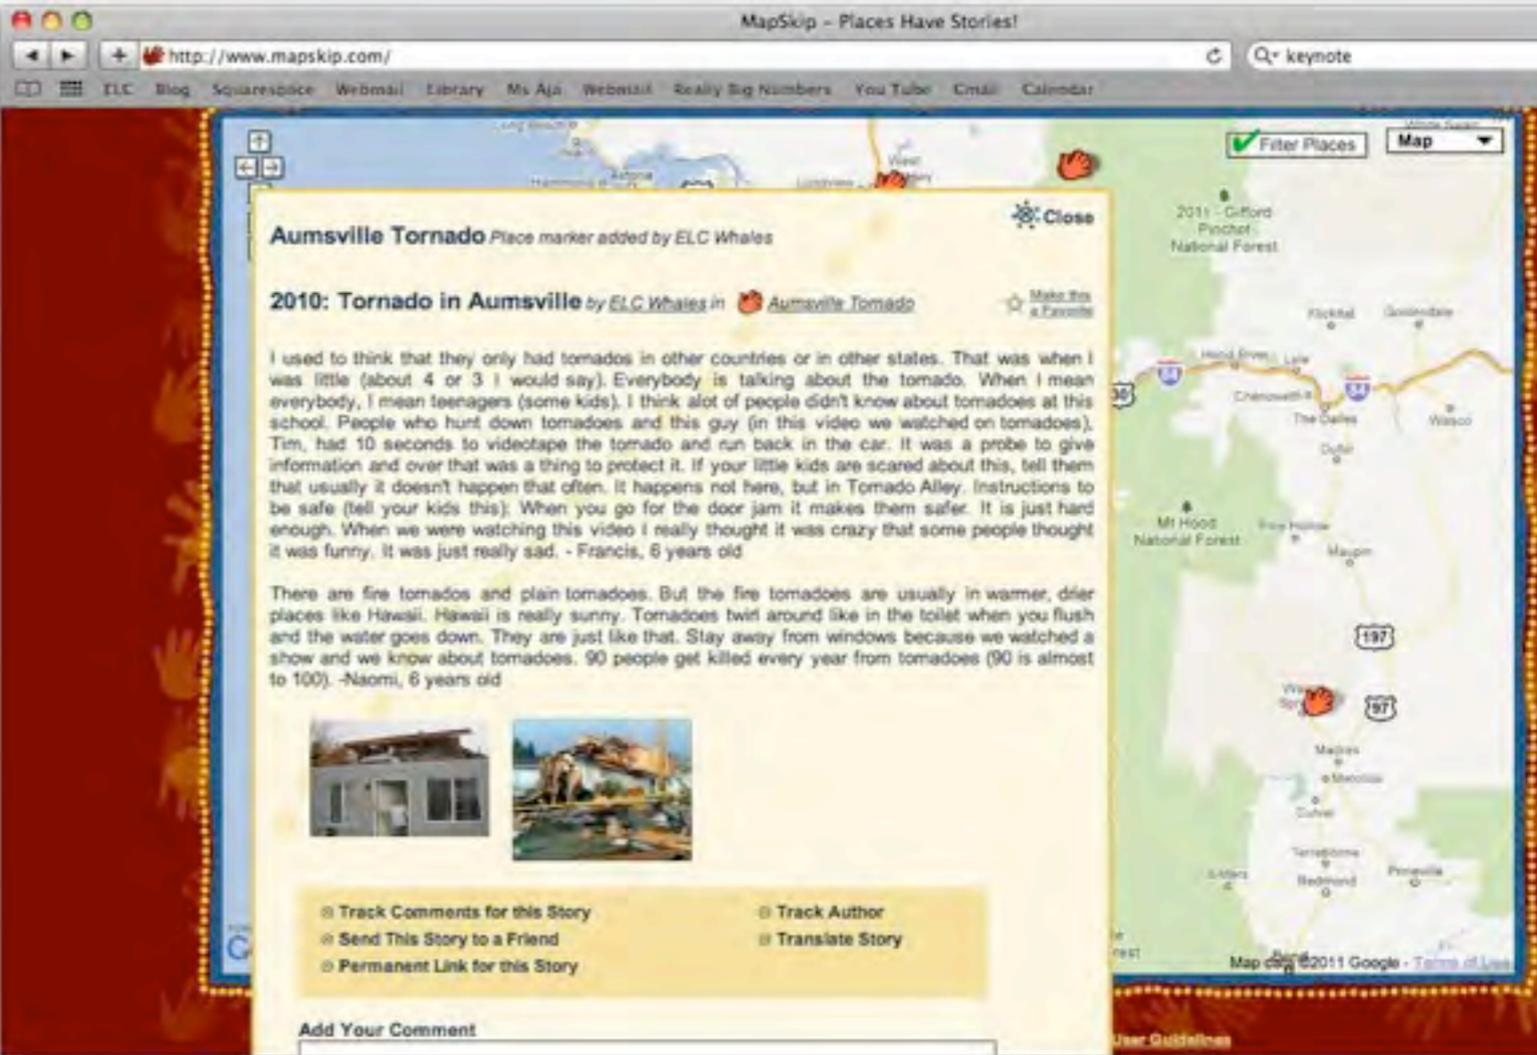

Evaluating Google Earth

- Provides hands-on experiences
- Enables unique, 3D perspective
- Encourages exploration
- Inspires research

Effective, Appropriate & Intentional Use Supporting Social Studies

MapSkip: *Sharing Our Adventures*

The screenshot shows a web browser window with the URL <http://www.mapskip.com/>. The page displays a map of Oregon with a red location marker. A pop-up window titled "Aumsville Tornado" is open, showing a story added by "ELC Whales". The story is dated "2010: Tornado in Aumsville" and includes a text description, two photographs of damaged buildings, and a comment section with options to track comments, send to a friend, and translate the story.

Aumsville Tornado Place marker added by ELC Whales

2010: Tornado in Aumsville by ELC Whales in Aumsville Tornado

I used to think that they only had tomados in other countries or in other states. That was when I was little (about 4 or 3 I would say). Everybody is talking about the tomado. When I mean everybody, I mean teenagers (some kids). I think alot of people didn't know about tomadoes at this school. People who hunt down tomadoes and this guy (in this video we watched on tomadoes). Tim, had 10 seconds to videotape the tomado and run back in the car. It was a probe to give information and over that was a thing to protect it. If your little kids are scared about this, tell them that usually it doesn't happen that often. It happens not here, but in Tomado Alley. Instructions to be safe (tell your kids this): When you go for the door jam it makes them safer. It is just hard enough. When we were watching this video I really thought it was crazy that some people thought it was funny. It was just really sad. - Francis, 6 years old

There are fire tomados and plain tomadoes. But the fire tomadoes are usually in warmer, drier places like Hawaii. Hawaii is really sunny. Tomadoes twirl around like in the toilet when you flush and the water goes down. They are just like that. Stay away from windows because we watched a show and we know about tomadoes. 90 people get killed every year from tomadoes (90 is almost to 100). -Naomi, 6 years old

Add Your Comment

Effective, Appropriate & Intentional Use Supporting Social Studies

Using MapSkip

- Explore new places
- Upload photos & stories

Requires

- Computer with Internet
(www.mapskip.com)
- Digital camera (optional)

Effective, Appropriate & Intentional Use Supporting Social Studies

Flat Stanley: *Cultivating Connections*

Effective, Appropriate & Intentional Use Supporting Social Studies

Flat Stanley Process

- Create flat people
- Penpal exchange
- Maps, photos, letters

Requires

- Digital Cameras
 - Internet Connection
- www.flatstanley.com

Effective, Appropriate & Intentional Use Supporting Social Studies

Evaluating Flat Stanley & MapSkip

- Empowers exploration
- Invites story sharing
- Creates connections
- Encourages creativity
- Sparks interest

Effective, Appropriate & Intentional Use

Intentional Use of iPads

Tips for Introducing iPads

- Introduce an app at a time
- Allow ample time to explore
- Support collaborate work
- Encourage intentional use
- Create “Tech Expert” team

Effective, Appropriate & Intentional Use Intentional Use of iPads

Name: _____

iPad Plan

1. Which program will you be using? 

2. What will you be learning, practicing, or researching?

 Reading	 Writing
 Science	 Math
 Researching	 Art

3. Will you be collaborating with a partner?

 Yes	 No
--	--

Effective, Appropriate & Intentional Use Quality Tools

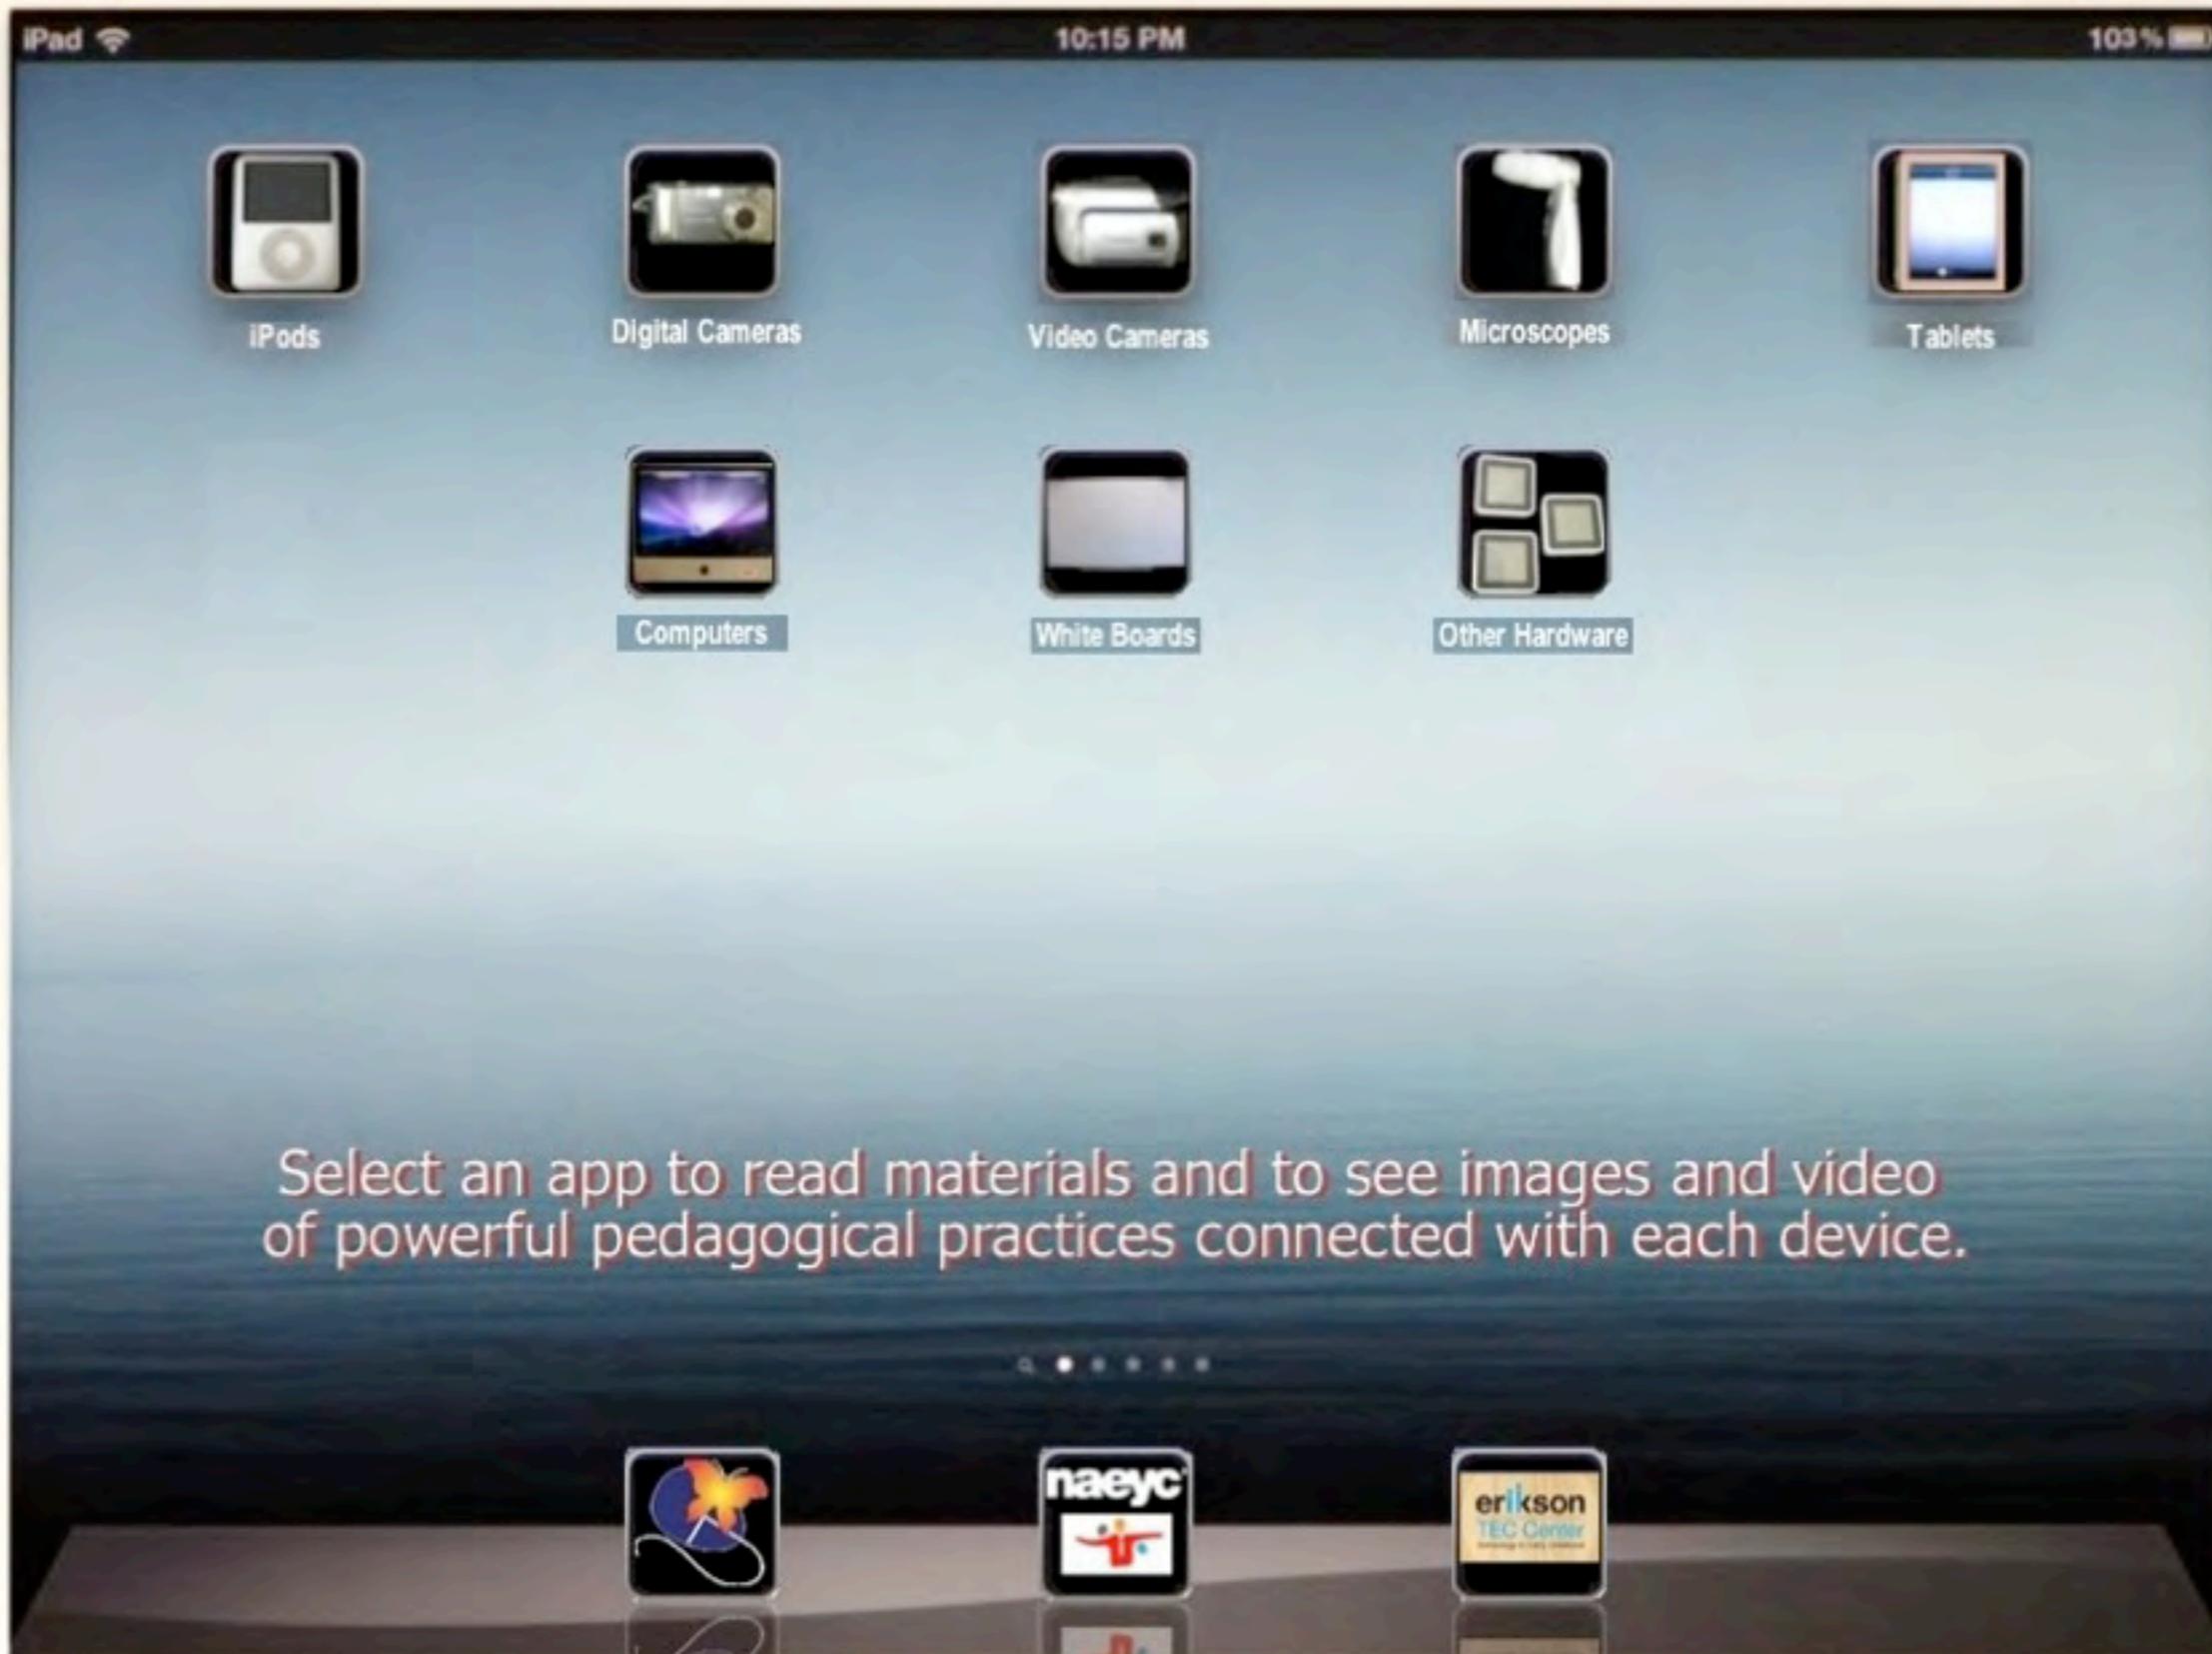

Things to Look for in an Educational Technology:

- Embodies Universal Design
- Utilizes Developmentally Appropriate Features
- Extends Classroom Experiences
- Requires Active Engagement
- Scaffolds Adaptive Complexity
- Encourages Revisiting & Sharing
- Models Multiple Diversities
- Empowers Exploration & Creativity
- Fosters Thinking & Problem Solving
- Supports Playful Use

Effective, Appropriate & Intentional Use Best Practices Database

<http://fg.ed.pacificu.edu/cldc/>

Digital Microscopes

Description

One of the great joys of early learning occurs when young children experience seeing the world in new and unexpected ways. Digital Microscopes can provide such a perspective. They empower children's insight when they are used as a manipulative tool that provides them with perspectives that are engaging and unique.

Most digital microscopes must be connected to a screen such as a computer. The best way to begin to use a digital microscope is to simply turn it on and hand it to a child. Almost without exception children (of all ages) will point it at their bodies (ear, eye, tummy...) and be fascinated with what they see. Providing learners with items that contain interesting textures and surfaces will allow them to connect their sense of touch with the image of the surface they are sensing.

Our preferred tool is a ProScope HD microscope. These can be connected to a computer in a classroom, at an exploration station, or outside in the natural environment. This microscope not only displays high definition digital images on the computer screen, but with the push of a button, it can capture photographs of what is being displayed for later discussion, story writing, or posting on a blog.

Suggestions for use

Classroom - Set up a computer (desktop or laptop or tablet) with HD software and microscope. Orient screen so that it is easy for the students to manipulate the scope and view the screen simultaneously. The scope can be particularly powerful when used for explorations of the human body as there is nothing more concrete than one's own body

Scope is also excellent for explorations of all manner of surfaces including

- Natural materials such as rocks and minerals, shells, wood, insects, and plants such as molds.
- Man made materials such as Metals, plastics, fabrics, various types of papers,
- Interesting small details such as dates on coins or bills, watch parts, facets of jewelry.

Effective, Appropriate & Intentional Use Review

Effective uses of technology are:

- Give the child control
- Active, hands-on, engaging, & empowering.
- Provide scaffolds to support tasks
- One of many options to support learning

Effective, Appropriate & Intentional Use

Conclusions

When considering using a tool:

- Determine student interest & need
- Envision what will be learned
- Recognize what is appropriate
- Be intentional and deliberate
- Support not supplant essential activities
- Have fun
